

# Learning the Truth About God

**Read Romans 10:13-15.** People learn to call on the name of Jehovah when Christians preach the good news to them. On the [jw.org](http://jw.org) home page, discover how millions are declaring “good news of good things.”

As a family, look at each photo posted at the top of the home page. Try to guess which land is depicted and where it is on the map below. Then click “OPEN” to check your answer and to learn the number of Jehovah’s Witnesses who teach the Bible in that land. Mark on the map the locations of the countries you looked at. Then mark on the map the location of the country where you live.

► **NOW TRY THIS:** Choose one of the lands depicted on the [jw.org](http://jw.org) home page. Using research tools available to you, find out what languages are spoken in that country. Then, under “Publications” on [jw.org](http://jw.org), try to find one of those languages, select it, and click the “Search” button. If the language is available, download a publication and an audio recording to learn how that language looks and sounds.
